SIXTY STORES UNDER ONE ROOF

AND EACH ONE VIEING WITH THE OTHER 59
to be the BUSIEST SPOT in "THE BUSY CORNER."

Competition is the life of trade. Competing departments are the life of trade in this store. And the customer gets the benefit of lower prices; each department head not only trying to underbuy the rest but to likewise undersell them.

You cannot begin to tell the daily news of such a store in even a full newspaper page. We have therefore picked only a few of the "BRIGHTEST SPOTS" from the many "BRIGHT SPOTS."

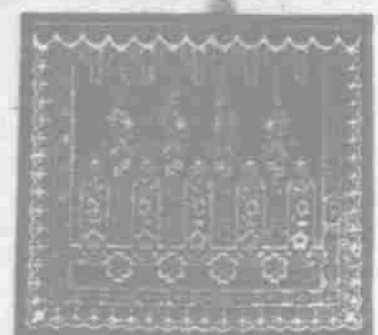

YOU WILL FIND EVERY DEPARTMENT EQUALLY PREPARED TO SERVE YOU AND SAVE FOR YOU

SERGE and SATIN DRESSES At \$25.00

Kann's—Second Floor.

—And you will really turn from one to the other and ask which is the prettiest.

—The serge dresses, of course, are more for regular wear, business wear or for the street.

—There are coat dresses, some with the turned up cuff at the bottom of the skirt and on the bottom of the coat part. Others have accordion pleated skirts, and there are also straight line dresses with narrow vests, and in the long Russian blouse styles are a number of jersey dresses, which are embroidered around the bottom, around the neck and on the sleeves.

—The satin frocks are plain or combined with Georgette. The colors are taupe, seal brown, chestnut brown, Copenhagen blue, navy, and black.

—Among the silks are sizes for the large woman of 50-inch bust.

—There are also sizes for misses, and the average woman.

Smart and Serviceable WINTER COATS For Women

—Coats that might be termed **haughty** in all but price, because they carry with them that air of well-grooming that a woman longs for in the street garment for constant wear.

—Something for business wear that is neat, trim, and simple, but smart in its lines is one of the great demands. We believe it is well answered in this line of coats.

—They are made of the good wearing all wool kerseys, velours and mixtures.

—The styles are the approved models of the season, and the colors are navy, brown, Copenhagen, Burgundy and taupe.

—All sizes to select from.

JUST RUN YOUR Hoover OVER

Worth Waiting For

Carpetings contain three kinds of dirt: (1) Buried grit (2) Clinging litter (3) Surface dirt.

Three cleaning processes are therefore necessary: (1) Beating (2) Thorough sweeping (3) Suction cleaning.

Only The Hoover Electric Suction Sweeper beats... as it sweeps as it suction cleans.

That is why The Hoover is in greatest demand, why its makers are the world's largest, why a Hoover is worth waiting for even though plenty of other types are always to be had.

It Beats—

The carpeting is raised and fluttered like a leaf in a gale, the dirt is loosened and shaken forth to be carried dustlessly away. Only the Hoover **beats**.

As It Sweeps—

For the Hoover has a beating-sweeping brush. Spun at electric fan speed, 24 large soft bristle tufts sweep resistlessly. Stubborn clinging lint, hairs, threads all yield. Only the Hoover **beats** as it sweeps.

As It Cleans—

Surface is continually being withdrawn by suction, completing the revolution. Lustrous in freshened colorings your carpets are clean within and without—thoroughly cleaned with a Hoover, because a Hoover **beats**, as it sweeps, as it cleans.
